

Your attention and assistance is urgently needed to address this ongoing spam problem. Organizations and individuals are being inundated with both fax spam and email spam with seriously jeopardizes all communications and business processes. These unscrupulous companies that prey on organizations and individuals with their spam pose a very serious threat, and are ruining our communication systems and processes.

In our hospitals we use faxes for delivering key orders and clinical communications. Unfortunately, that process is being seriously impaired due to the outrageous level of spam that is received constantly every day. Additionally, Our organization currently receives over 40,000 spam emails every day. We have spent precious funds on anti-spam tools and dedicated scarce resources to try to stop this ongoing problem, yet unfortunately, the spam flood continues. These spamming companies continue to refuse to cease their spam activity, and strong legislation with significant penalties is needed to address their unwanted, harrassing activity.

Spam is very serious problem and very significant threat to business. Your prompt, strong action is requested in putting a stop to spam.

Thank you,
Mark
